

## Cases and bags

for bicycle batteries and accessories

Our VLITEX fire resistant bags and cases are used to protect, store and transport batteries and to limit damage in the case of fire :

- flames and heat remain inside
- the release of smoke is significantly reduced

Composition : silicone-coated fiberglass fabric

Compact design : resealable and almost airtight

Heat resistance : up to 1 000°C.

VLITEX solutions are a resource-friendly alternative in firefighting.

Tested with batteries up to 400 Wh

Size of the case Version L (L x l x h)	44 x 13 x 12 cm
Size of the case Version XL (L x l x h)	54 x 13 x 12 cm
